

Description

The DVI Extender/Equalizer extend the DVI signal up to 150 feet while keeping the image 100% intact and pristine. The extender simply takes the signal coming from the attached DVI source over 150 feet and qualize it, sending it over a short DVI cable to the display. The image will appear as if the source were right next to the display.

PIN ASSIGNMENT:

Features:

- Automatically provides compensation for DVI cables.
- Compatible with DTV Resolutions 480i, 480p, 720p, 1080i, and 1080p.
